Control SEISA RM-306E

Instructivo

1. Sacar la tapita posterior del control e insertar 2 pilas AAA/LR303 como indique la figura dentro de la ranura de las pilas y luego volver a poner la misma.
2. Encienda el televisor a través de su botón.
3. Buscar el código adecuado para su televisor dentro de la tabla de códigos.
4. Presione el botón “set/ok” por aproximadamente 3 segundos hasta que se encienda la luz roja del control.
5. Digitar el código de 3 dígitos correspondiente a su televisor y probar si el mismo responde a los comandos bases como cambiar canal, subir volumen y el botón de encendido y apagado[1]. En el caso que no funcione intentar con un código diferente y repetir las pruebas. Una vez encontrado el código funcional, presione nuevamente la tecla “set/ok” y el control guardará el código para que pueda usarlo normalmente.

[1]En modalidad prueba la parte numérica del control no responderá para poner canales, ya que esta en uso para introducir códigos.
